2. Updated features

2.1. High risk contact: checkboxes to choose the number of tests

It is now possible to choose the number of tests generated when prescribing for high risk contact reason. The doctor can create the appropriate number of test depending on the patient situation.

The checkboxes are prechecked depending on the last high risk contact date entered:

- More than 17 days ago:
 - test to be used starting today
 - test to be used 7 days after high risk contact date is *blocked* because it would be expired right away
- Between 17 days ago and 4 days ago:
 - test to be used 7 days after high risk contact date
- Else:
 - test to be used starting today
 - test to be used 7 days after high risk contact date

Le patient est un soignant ou un soignant pour les personnes âgées

Raison de la prescription du test *

Contact à haut risque avec un cas de COVID-19

Date du dernier contact infectieux *

27/8/2021

Tests à prescrire :

- Test à utiliser dès aujourd'hui
- Test à utiliser 7 jours après le dernier contact haut risque (à partir du 3 septembre 2021)

Médecin(s) recevant les résultats :
