API Documentation

- ACC : <https://portal-acpt.api.ehealth.fgov.be/>
- PROD : <https://portal.api.ehealth.fgov.be/>

2. Updated features

2.1. Nurse: access to medical data for schools

Nurses who received a mandate from a doctor can now access medical data (test reason, test results, vaccination status, last infection in the last 180 days).

It is only available for collectivities (not for companies) of type school:

FR	NL
Ecoles marternelle	Kleuterschool
Ecole primaire	Basisonderwijs & Lagere school
Ecole secondaire	Secundair onderwijs
Enseignement artistique à temps partiel et enseignement pour adultes	Deeltijds kunstonderwijs en volwassen onderwijs
Universités et Hautes Ecoles	Universiteit en Hogeschool

2.2. Adding a new collectivity

It is NOT possible anymore for a mandated person to add a new collectivity with a declaration on honor.

The doctor responsible (not a mandated doctor) for this collectivity must first make declaration on honor and then create at least one prescription to make the collectivity available for the mandated people.

2.3. Contact info for Flanders

Contact information for Flanders has been updated.

2.4. Bulk upload tracking number

The popup with the bulk upload tracking number now stays on screen when the user clicks somewhere else.

By doing so, the risk to lose the tracking number is reduced.
