2. Updated features

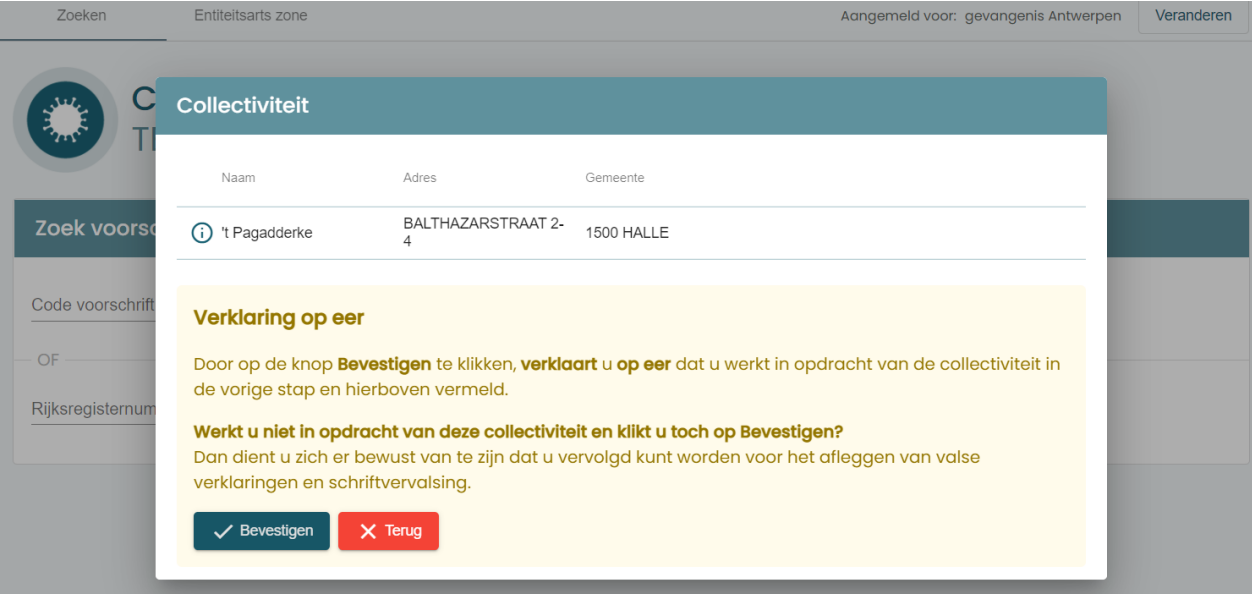

2.1. Déclaration sur l'honneur / Verklaring op eer – creation of a prescription no longer necessary

The creation of a prescription by the responsible physician in order to give effect to the “declaration on honour” of a manually added collectivity, is no longer necessary.

The person mandated by the physician will be able to select the manually added collectivity in his/her list after the physician has accepted the “declaration on honour”.

In addition, the “declaration on honour” is no longer subjected to the 60-day limit of the last prescription created and will continue to exist after 60 days.

The changes described above are limited to the physician possessing a NIHI-number known by the application.
