1. Release

RELEASE NUMBER		
TYPE		URGENT
APPLICATION	Script & Forms	
VERSION		
DATE ACCEPTATION	09/02/2022	
DATE PRODUCTION	10/02/2022	

2. New features

2.1. CR208 - Change start date for quarantine of house members

Impacted scripts: 1A, 2A, 2C, 4A

Adaptation of scripts and business rules in order to be aligned with current quarantine rules for cohabitants without strict isolation with an infected person.

For partially / not vaccinated household members of an infected person who cannot be isolated (e.g. because it is a young child), quarantine and testing is counted from the first symptoms of the index case.

For these cases, the start date of quarantine will no longer be the "Last Contact Date" but the oldest date among the following available dates in system:

- Index patient symptoms start date
- Index patient positive self-test sampling date
- Index patient CTPC sampling date (or if this data is not available, the "index patient test result date")

Changes in scripts

1A - Addition of the question to trigger the use case for the contact type "cohabitant who needs a CTPC code and a Quarantine certificate".

Contacten	
Huisgenoot die wel attest of PCR code nodig heeft	
Andere ≥ 12 jaar	
Andere < 12 jaar	
Kan u de naam en voornaam van deze persoon spellen?"*	
oornaam	
aam *	
Kan u zich strikt isoleren van deze persoon?"	
i Informatie voor de agent:	
informatie voor de dgent:	
Strikte isolatie betekent dat de huisgenoot continu in een aparte kamer verblijft	t,
inclusief om te eten en slapen.	
⊃ Ja	

2A 'FROM SCRATCH' & 2C - Addition of questions to trigger the use case and to fill in the quarantine start date

4A - Addition questions to collect <u>the date of possible self-test sampling</u> in order to align the logic with script 1A.

2.2. CR209 - Citizen form (4A) - Add contact type "<12 years"

Impacted scripts: 4A, 1A

Update of the assignment by the system of "contact type" – which are used in script 1A to determine the contact's classification between High and Low risk – to high risk contacts added from citizen form "4A".

Trigger	"Contact type" in 1A script	
Do you live with the contact = yes	Cohabitant who needs CTPC code and Quarantine	
is the contact under the age of 12? = yes	Other <12	
is the contact under the age of 12? = no	Other >12	

2.3. Advice for children under 12 with a recovery certificate

Impacted scripts: 2A, 2C, 1A HH

In advice 1 and 2 - the paragraph for specific rules to follow for "high risk contacts under 12" will no longer be displayed if this child has a <u>recovery certificate (infected in the last 150 days)</u>.
