2. New features

2.1. Consultation Committee March 4 - Testing, isolation and quarantine strategy

Impacted scripts **:** All

Following the decisions of the Consultation Committee of March 4, the CIM Public Health has also refined the testing, isolation and quarantine strategy according to the current epidemiological situation.

1A script "Index patient interview" – Form scale down

| Step 1 "information"	• Reorganization of questions • Editing Information/advice for the Index Patient
Step 2 "Collectivity"	• Screening of high-risk contacts should be maintained in **vulnerable groups** (e.g. residential care centre), after analysis by the responsible physician. • Screening of "youth camp" is deleted • Script 1C will no longer be triggered for this case • Added question on "**DATE OF COLLECTIVITY LAST VIST**". This information will be automatically displayed in the patient information of the triggered 1B script as well as in the message content for eHealth Box or email.
Step 3 "Organization"	• Deleted step • Script 1B will no longer be triggered for this case
Step 4 "Whereabout"	• Deleted step
Step 5 "Contact"	• Deleted step • Script 2A/2B will no longer be triggered for this case
Step 6 "Source"	• Remove question about infection, vaccination and CoronaAlert app

1B script "Notify Collectivity " – New data

"DATE OF COLLECTIVITY LAST VIST" added in 1A script will be automatically displayed in the patient information of the triggered 1B script as well as in the message content for eHealth Box or email.

4A script "Citizen form to report high-risk contacts " – Decommission

- 4A forms will no longer be triggered for index patients.
- Form 4A will therefore no longer be accessible to the public.
- The link in the "announcement sms" will be deleted
- as well as the landing page on "ehealth" portal.

Creation of scripts "from scratch"

- The creation of scripts 1C "YOUTH CAMP" and 2C "CORONAALERT APP INBOUND CALL" is removed from Script&Forms advanced search page.
- 1A, 2D, 2A scripts are still available for creation.

Advanced search

It will still be possible to search for tickets created with deactivated templates (e.g: 1C, 2A) after the decommission date during the search results retention period.
